

Edgard

NEW MOBILE KIT FOR AdBlue® REFILLING
INTO CARS AND COMMERCIAL VEHICLES

MADE IN ITALY

PIUSI

EDGARD

Born from PIUSI experience into the AdBlue® refilling equipment, EDGARD is a **mobile system, battery powered**, expressly engineered to dispense **AdBlue® into cars and commercial vehicles**.

Practical and movable, it is specifically designed for all the service stations that need a **handy equipment for a guaranteed sale of AdBlue® by volume**.

**THE ADBLUE® BUTLER
IN YOUR SERVICE STATION
FOR A GUARANTEED SALE
OF ADBLUE® BY VOLUME**

EDGARD by PIUSI is simple to use, clean and easy to take wherever it is needed. The practical design avoid any possible overturn of the cannister during the dispensing procedure.

As the system is based on volumes, it has **no metric certification related costs** and **no reoccurring fees for homologation and maintenance**.

SB325_X CAR

The patented AdBlue® nozzle by PIUSI for a precise, clean and safe dispensing with no leak or crystallization.

SUZZARABLU DC

The top-quality and high performance PIUSI DC pump for AdBlue®: long lasting application guaranteed.

CONTROL PANEL

The EDGARD control panel is intuitive and easy to use: just one button to activate and manage the cart kit.
